Dear Sibil Manha sir,

I had joined Sociomentors test series for my mains preparation for 2021. I had prepared sociology with very limited resource and so i was lacking in content side. Hence I was quite stressed on how to get good marks in sociology paper. However I was able to learn through the standard dimensions approach and current affairs linkage techniques on how to add depth to answers even with limited content. The exercise on how to generate multiple dimensions on various topics using frameworks helped to clear many doubts in my mind.

Overall I would like to thank you for enabling me to score 288 in sociology this year even at the face of limited preparation.
